Asana and PageProof

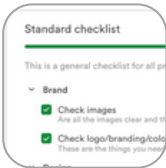

Supercharge your marketing creative workflow

Create proofs of any file type, no matter what the creative campaign, directly from Asana or from PageProof.

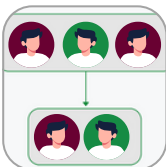

Easily add visibility of proof approval progress to your tasks with the PageProof widget.

PageProof offers advanced powerful proofing features that streamline collaboration and the review process.

Easy-breezy for designers who can directly action comments using PageProof Adobe add-on.

Fly through approvals and compliance on autopilot. All without you lifting a finger.

Customise workflows even further by creating rules for when certain trigger events occur.
